

AMENDMENTS TO THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A method of alerting a user of an occasion date when a call is received in a mobile phone having an idle mode screen displaying function, comprising:
selectively entering the occasion date and images from downloaded information or from said mobile phone;

accepting a call on the mobile [[a]] phone, the call intended for the [[a]] user;
determining whether today is the a-registered occasion date;
displaying a first ~~predetermined~~ image from said images for an idle mode screen on the phone ~~for viewing by the user~~, if today is not the ~~registered~~ occasion date; and
changing the first ~~predetermined~~ image from said images to a second ~~predetermined~~ image from said images if today is the ~~registered~~ occasion date to remind the user of the ~~registered~~ occasion date.

2. (Currently Amended) The method of claim 1, further comprising:
~~designating a date selected by the user as the registered occasion date; and~~
registering an image selected by the user among idle mode screen images stored in the phone with respect to the ~~registered~~ occasion date.

3-4. (Cancelled)

5. (Currently Amended) A method of alerting a user of an occasion date when a call is received in a mobile phone having an idle mode screen displaying function and an incoming call ring sound alteration function, comprising:
selectively entering the occasion date, images, and ring sounds from downloaded information or from said mobile phone;

accepting a call on the mobile [[a]] phone, the call intended for the [[a]] user;
checking whether today is the a-registered occasion date;

displaying a first ~~predetermined~~ image from said images for an idle mode screen on the phone ~~for viewing by the user~~ and playing a first ~~predetermined~~ ring sound from said sounds as an incoming call ring sound, if today is not the ~~registered~~ occasion date; and

displaying a second ~~predetermined~~ image from said images and playing a second ~~predetermined~~ ring sound from said sounds as the incoming call ring sound, if the today is the ~~registered~~ occasion date to remind the user of the ~~registered~~ occasion date.

6. (Currently Amended) The method of claim 5, further comprising:
~~designating a date selected by the user as the registered occasion date; and~~
registering an image and a ring sound selected by the user among idle mode screen images and ring sounds stored in the phone with respect to the ~~registered~~ occasion date.
